

# CO2 SERVICE KIT

*R-744 (CO2) system  
maintenance kit*

**SAFELY MAINTAIN  
CO2 A/C SYSTEMS without a  
SPECIFIC CO2 CHARGING STATION**

The Coolairco CO2 SERVICE KIT was developed to provide automotive professionals with a simple and smart procedure for the maintenance and refilling of CO2 car air conditioning systems and heat pumps.

### WITH THIS KIT YOU CAN:

- Control the refrigerant discharge
- Make the vacuum of the system by external vacuum pump
- Refill the system with pre-filled CO2 cylinders (VW, MEB)
- Check the pressures inside the system
